WATER COMMISSIONERS' REPORT

Your Commissioners submit the following report for the year 1965.

The Farmington Road extension was completed and put into service in May.

In accordance to your vote at the yearly meeting the Engineering firm of Anderson & Nichols made a complete survey of the system and made recommendations for improvements which if adopted by the District would insure adequate water for present and future needs. A complete report of their preliminary survey is available at the Nute Public Library. A cost estimate sheet is included with this report.

Respectfully submitted:

FIRE WARDEN REPORT

REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

Most of us who live in New Hampshire and the thousands of vacationists that visit us every year love the State for the variegated woodlands that encircle our clean lakes and clothe the hills and mountains. Most of us appreciate these values, but still there were enough careless people among us to cause over 880 grass and woodland fires to start in 1965. True this was a much dryer than normal year but this should have meant the use of extra care. Fortunately the fire fighting forces have held the line against such careless act. It is up to each one of us to be ever mindfull that a spark or flame is a potential fire.

WE MUST ALL BE CAREFUL:

1. To teach our children the danger in lighting matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely despose of rubbish preferably at the town dump. If you must burn rubbish or brush;
 - a. Always get a permit to burn from the warden.
 - b. Start your fire late in the day after 5:00 P.M.
 - c. If burning a field or brush have equipment and adequate help on hand. The heat from your fire creates its own draft to spread fire.

Our carelessness with fire is costing our State and Towns thousands of wasted dollars in suppression and hundreads of acres of destroyed woodlands. Yours never to enjoy.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Milton:

The activities of the educational scene are so varied that it is impossible to cover them all in any one annual report. Some of them are mentioned in the reports of the high school principal, elementary principal, school nurse and remedial reading teacher. You are encouraged to read these reports and to become familiar with the organization of your schools.

As of September 20th, 1965, the enrollment in the Milton Schools was as follows:

School	Grades												Totals
	1	2	3	4	5	6	7	8	9	10	11	12	
Milton Mills	10	3	10	8	4	2							37
Milton Grammar	30	33	37	30	31	27							188
Nute High							34	34	48	41	42	45	244
Totals	40	36	47	38	35	29	34	34	48	41	42	45	469

Tuition pupils attending Nute High School as of September 1965 were as follows:

Town	Grade	9	10	11	12	Total
Wakefield		14	14	9	25	62
Lebanon		5	3	5	4	17
Brookfield			1			1
Total		19	18	14	29	80

The complexities of school administration have been enhanced by the advent of the many new federal aid programs which have been added to the many existing programs. The acceptance and/or rejection of any federal monies is a decision of each respective community.

I will not attempt to describe the replacements or additions in staff this year by listing faculty changes. A directory containing a list of teachers is included elsewhere within the report so that you may become acquainted with those who are working daily with your children throughout the district. These people are a dedicated group in whose hands rest the future of your community and nation through the influence they have in training your youth to assume their place as adults. They solicit your continued support and understanding.

Serving the needs of the school-going population in years

gone by was relatively simple and inexpensive. Provided with little beyond book learning, few acquired what was equivalent to a high school education, steeped in the tradition of college-preparatory oriented schools, we may wonder what effect Benjamin Franklin's academy, founded during the middle of the 18th century, had upon the general public. Now the University of Pennsylvania, Franklin's academy was established for the purpose of providing "practical instruction" and was what may be looked upon as the forerunner of the comprehensive high school.

Today, American schools are fully committed to the philosophy of educating all of the children of all of the people, and applies not only to that segment of youth considered to be educable, but trainable. Public pressure is being brought to bear on the schools to provide facilities and training for many who normally would be deprived. The federal government is supporting massive schemes to train young adults presently unemployable because of lack of skills. While we respect the fact that the schools will not always meet all of the needs of those who attend, nevertheless, the challenge must be met as successfully as possible. Business and industry will assume important roles with respect to training and work experience programs, as will state-operated vocational and technical schools, but the public schools will be counted upon to carry the biggest share of the load---if for no reason other than mounting enrollments.

What does this mean when interpreted as a school program? Nothing less than providing youth with the training and skills necessary to participate in the adult world of work, if high school is terminal, or to continue with a post-secondary program. Inherent in this is that instruction must be offered at a level which relates to ability, for it must be remembered that the word "education" has its roots in the latin "edacatus" meaning to "lead out". There are those who consider the educative process simply as one involving a "pouring in" of information. Respecting the fact that there are individual differences, it must be appreciated that capacities vary. Likened to water, if to educate meant to pour in, some would swim, some would float, and many would drown.

Your school board has spent many hours trying to establish policies and programs that will insure the youth of our district the best education that we can afford to buy.

We again solicit the continued support of parents, the press, business men, citizens, churches and all other agencies, in our common effort to improve our greatest natural resource, the boys and girls of America.

Respectfully submitted

REPORT OF PRINCIPAL

The Milton Public Schools opened with the following distribution of students in the various grades. Milton Mills grades 1, (10); grade 2, (3); grade 3, (10); grade 4, (7); grade 5, (4); grade 6, (2); In the Milton Elementary School, grade 1, (29); grade 2, (33); grade 3, (37); grade 4, (31); grade 5, (31); Grade 6, (27); In the high School; grade 7, (34); grade 8, (34); grade 9, (48); grade 10, (41); grade 11, (42); grade 12 (45); a total of 468 students .

The following changes were made in the faculty of the Milton Public schools, At Milton Mills, Mr. Peter Anderson replaced Mrs. Ella McKenna teaching grades 4, 5, and 6 . At the Milton Elementary School, Miss Persis Battis replaced Mrs. Jacqueline Locke in the first grade. Mrs. Elizabeth Hughes replaced Mrs. Elizabeth Sanders in the third grade. At Nute High School the following changes were made. Mr. Lawrence Enos replaced Mr. Raymond Patriacca in Shop; Mr. Kenneth Jones replaced Mr. William O'Keefe in 9th and 10th grade English; Miss Patricia Schulte replaced Mr. Michael Latvis in teaching eleventh and twelfth grade English, Humanities, and English composition; Mrs. Mary Dickson replaced Mr. Robert Grondin teaching French. Mr. John Aucone replaced Mr. James Regan in Social Studies; Mr. William Osgood replaced Samuel Warren in general math and Science; and Mr. Christopher Hall took over Mr. Regan's Guidance duties. Mr. Henry Hanisalo replaced Mr. Julian Leach for vocal music. At the High School Mr. Robert Lombard has been employed to work on the part time basis to help clean the high school.

The usual summer maintenance i.e. washing windows, woodwork, desks, washing and waxing floors, was carried out in the Milton Public Schools. In addition at Milton Mills a section of the old board fence was replaced with a new chain link fence. It is hoped that the rest of the old fence can be replaced this year. At the Grammar School, two outside doors were replaced on the south end of the building; the corridor ceilings and walls were painted; the facade around the top of the building was repaired and the front steps were recemented; the playground area was partially regraded thanks to the town crew under the direction of town road agent, Mr. Bard Plummer. A problem still

exists at the Grammar School concerning the advisability of either grassing in or hot topping some of the areas around the playground.

At the high school the corridor walls were repainted; the girls basement was repainted; and the lights outside the library were replaced. The gymnasium floor is still a problem and an investigation into possible solutions is underway.

The major curriculum change this year has been a change in the use of mathematic textbooks in the lower grades. The American Book Company's textbook which was adopted is a little more conservative. If we can find a teacher, the plan is to start a special class for those whose academic ability is limited and who could profit from special classes. The money for this project will come from Title I of the Education Act. of 1965.

A study is underway to seek means to make available to the students an exposure of French in grades 4 through 8, utilizing the program "Parlons Francais" Broadcast by WENH-TV Durham.

Again I would like to thank all those who gave so generously of their time and energy to make the Milton Public Schools better institutions of learning.

Respectfully submitted
John R. Callahan
Principal

REPORT OF SCHOOL NURSE

To the School Board, Supt. Martineau and the Citizens of Milton, I hereby submit my annual report as school nurse

The routine health services have been conducted as usual. There have been no changes made in the program this year.

The following is a statistical report of the health work accomplished in 1964-65.

		Defects	Corrections
Pupils examined by the School physician (Dr. Quinn)	227	6	5
Work done by school nurse:			
Vision	539	34	33
Hearing	359	5	5
Inspections (heads)	779	Some	Yes
Heights, weights			
Teeth	514	Many	Some
First Aids	1405		
Blood pressures rechecked, ordered by school physician	6		
Any defects found by either the school physician or nurse were reported to parents.			
Diseases			
Chicken Pox (No. of cases reported)	50		
Virus infections	Many		
Sore throats	Several		
Referrals made to Child Guidance Clinics			
In Concord and Dover	4		
Home visits	134		
Students taken home because of illness	121		
Students taken to Doctor's office	5		
To Hospital for X-Ray's	5		
To Optometrist in Rochester	8		
To Dentist	3

Milton Mills School	40		
Orientation Day was held May 12, No. of children checked			
Polio clinics held,	28		

Oral vaccine only	2
Trips to Concord to get and return the vaccine	2

I would like to say at this time that I wish more parents would take advantage of these clinics and really make it worth the time and work involved.

Attended two meetings, one in Portsmouth, the other in Concord. The one in Concord was on Retardation; a very interesting meeting.

I wish to thank the School Board, Supt. Martineau, Mr. Callahan, other members of the staff as well as parents for their close co-operation.

Respectfully submitted,

Mildred L. Gilman, R.N.
School Nurse
